CREATED BY
COLTON-PIERREPONT CENTRAL SCHOOL
STUDENTS IN
3RD AND 5TH & 6TH GRADE ART CLUBS

The "Baby Barn Quilt Project" was completed by Mrs. Krystal Hewer's 3rd grade classes supported by the 5th and 6th grade Elementary Art Club. This project was a way of introducing the new tradition of barn quilts to students as well as review important mathematical principles such as radial symmetry, patterns, and angles. Barn quilts provide an excellent opportunity for students to find symbols and meaning in their own interests, including the Minicraft Trapped Creeper Quilt Squares or a chance for students to explore a classic quilt such as the Star Jaws or the Flying Green patterns. The children had a great time working on these, and even had help from some of our older high school students. Barn quilts are a great tradition for building community in the classroom, and our students are proud to share their project with this year's Cotton WinterQuest!
